# Update – ZIMFETP

Prof. M. Tshimanga
TEPHINET, Program Directors
Meeting, Amman, 2012

# **Partnership**

- Strong partnership exists between University and MOHCW
- University provides
  - Classes/lectures/degree
  - Academic Sipervisors
- MoHCW-Local Authorities provide
  - Field Attachment sites
  - Field supervisors
  - Resources (office space, transport etc.)
- CDC- Funding and technical expertise

### **Training Strategies**

Top level public health workers (2-year FETP; Leadership & advocacy courses)

Mid level public health workers (appropriate competency-based short courses)

Lower level public health workers (IDSR, IHR)

# **Training Strategies**

#### **Full Time**

- Started in 1993
- CDC co-operative agreement
- 163 graduates
- Enrollment 20 yearly

#### Part time

- Started in 2008
- No funding. Trainees pay for additional tuition
- 5 graduates
- Enrollment 5 every 2 years

Current enrolment = 39 trainees

# **MPH Enrolment**

Category	Full-time			Part -Time	
	2010	2011	2012	2010	2011
Medical Doctor	8	10	6	0	3
Nurses	0	1	3	0	0

# Networking

- CDC EIS
- TEPHINET( Training programs in Epidemiology and Public Health Interventions network.
  - Attended the Cape town conference
  - Next conference in Yemen in 10-15 November 2012
  - Focus on accreditation
- AFENET
- APARET
- MPH Alumni association
  - AGM held
  - No clear activity outline

# **Funding Sources**

- MOHCW remains the major sponsor of field training
  - Discussing FETP budget line with MoHCW
- CDC under PEPFAR
  - Awarded a five-year co-operative grant 2011-2015
- AFENET support
  - Travel to conferences and meetings
  - HSO support staff

# **Programme Strengths**

- Housing of the program within the Ministry of Health and Child Welfare headquarters
- Strong and supportive base of dedicated field supervisors
- Improved academic Faculty base
- Model for the demonstration of a successful integration and collaboration between the major partners in FETP training i.e. Ministry of Health, Universities and CDC

# Challenges

- Increased class size
- MCH Module Coordination
- Guest Lecturers now require payment
- Accommodation for trainees at field sites
- Utilization of laboratory in fieldwork
- Traditional field training space- overcrowded (PMDs offices)
- No program specific funding

### **Immediate Plan**

- Initiate an evaluation of the MPH training/FETP in its current format
- Lobby the MOHCW for a budget line to support the programme
- Consider strategies to build epidemiology capacity for mid level health workers: e.g. District course model
- Repeat Scorecard assessment (last done in 2010)

### Review Team

### Met

- Chairman Department of Community Medicine
- Chairman of MPH Advisory Board
- Director Zim FETP and FETP staff
- Academic staff, supervisors and mentors
- CDC Country Director
- Field Supervisors: Dr Mberi, Dr Mugurungi
- UZ IRB Assistant Registrar College of Health Sciences

## **Review Team**

- Visited
  - BRIDH and NMRL laboratories
  - Medical Library
- Reviewed MPH documents

### **Lessons learnt**

- RT to be flexible. Asked for documents that don't exist as stand alone documents e.g.
   Standard Operations Manual but contents covered in:
  - MPH Field Manual Guide (for Trainees and Field coordinators)
  - General Academic Regulations for Postgraduate Degrees of the University of Zimbabwe
  - Revised Regulations for the Masters Degree in Public Health (MPH)

## Lessons learnt

- There was need to clarify the definition of terms used in the Accreditation form referring to trainee mentor, trainee technical supervisor, trainee service placement supervisor, classroom instructor and field supervisor
- The time allocated for the visit was not enough to visit all field sites

## **Score Card**
