Job Opportunities

Date: Monday January 22, 2024

Program: Botswana Public Health Institute

Duty Station: Gaborone, Botswana

Application deadline: Monday February 5, 2024

Background:

African Field Epidemiology Network (AFENET) is a not-for-profit organization, networking and service alliance of African Field Epidemiology and Laboratory Training Programs (FELTPs), and other applied epidemiology training programs in Sub Saharan Africa. Through its member field epidemiology training programs, AFENET is dedicated to supporting African ministries of health build strong, effective, and sustainable programs with capacity to improve public health systems. AFENET's vision is to ensure a *"Healthier Africa"* by effective prevention and control of epidemics and other priority public health problems in Africa.

In October 2022, the Botswana Ministry of Health with support from technical partners such as the United States Centres for Disease Control and Prevention (US CDC) launched the Botswana Public Health Institute (BPHI). This is in line with the world's best practices in preparing for effective response to public health emergencies. The US CDC in Botswana continues to support the BPHI to establish strong and functional pillars to achieve its intended mandate. Working with AFENET, the US CDC in Botswana will support the human resources needs for the BPHI specifically for the surveillance and laboratory pillars. Within the framework of this collaboration, the AFENET seeks to hire skilled and experienced health professionals to fill the following positions as per the detailed job descriptions below.

1. Post
